# MUSIC & MINDS SUMMER LAB (AGES 6-10)

Music & Minds Summer Lab is a small-group summer program that uses music to help kids grow socially, emotionally, and cognitively, while still feeling fun, creative, and engaging. Led by board-certified music therapists, children participate in interactive music activities, movement, games, and group challenges that support skills like communication, emotional regulation, flexibility, problem-solving, and working with peers.

With a 1:3 therapist-to-child ratio, this program is designed for children who can participate mostly independently in group activities, follow routines with minimal support, and enjoy being part of a small group. Therapists provide guidance and encouragement, but the focus is on helping children build independence and confidence alongside peers.
